

**SAINI HEAVY ELECTRICAL &
ENGINEERING CO. PVT. LTD.**

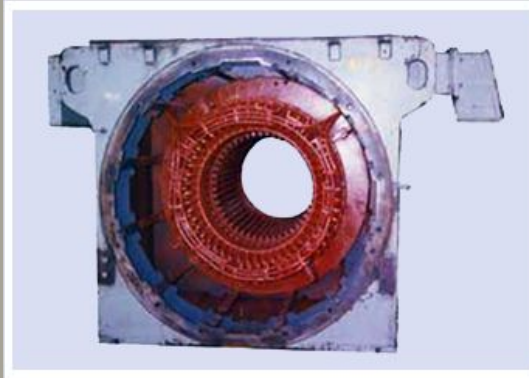

REWINDING

All types of AC / DC, HT / LT Motors

19.7 MVA Stator Being Rewound

Rewinding of 2611 KW 11KV Stator Steel Industry

Special Features :

1. Highly experienced and dedicated team of technicians
2. Team of experienced engineers backed by design input and Re-Engg skill.
3. Use of quality material of reputed make.
4. State of Art Technology for accuracy.
5. Strict quality control in all jobs -big or small
6. Well equipped static & dynamic testing arrangement.
7. Efforts towards "Value Addition" during repairs to enhance Quality & life of machine.
8. Complete documentation.
9. Test certificates are furnished.

2 x 2400 kw TWIN DC Armature after rewinding

2 x 2400 kw TWIN DC Armature after rewinding

Repairs & Rewinding of :

1. AC HT & LT Induction motors; Traction motors
2. DC Motors Traction motors; GE 752 Machines Brakes
3. Electrostatic Commutators
4. Shaft replacement without damaging winding
5. Manufacturing & supply of AC HT coils & DC pole coils
6. Precision dynamic balancing
7. Site services for overhauling, repairs
